## NEW ALIPORE COLLEGE

### Energy Usage Policy

New Alipore College, Kolkata is committed to energy conservation. The Energy Usage Policy of this college is to manage energy in such a systematic way to minimize its impact on the environment. It will help us to embed efficiency and environmental awareness into our everyday activities, thus helping us to realize our responsibilities and commitment to conservation of natural resources and to limit its usage. Listed below are several guidelines that are intended to manage and reduce energy consumption on all college campus. These guidelines are to be followed by all staff, faculty, administration, and students.

#### Policies:

- To assess source energy usage and measure its impact on the environment.
- To reduce local air pollution emissions by using environment-friendly vehicles, including bicycles, public transportation and use of pedestrian-friendly roads.
- To install photovoltaic solar panels for the generation of alternate energy.
- To install more LED bulbs in the whole campus to save energy.
- To encourage use of advanced technology to minimize energy consumption, atmospheric emissions, and noise, particularly from our vehicle fleets.
- To monitor and respond to emerging environmental and energy issues. To strengthen our employees' and students' environmental knowledge and skills to improve our own environmental performance.
- To provide information and training opportunities on energy saving measures.
- To offer opportunities for employees and students to engage in initiatives which contribute to environmental protection.

- To offer opportunities for employees and students to engage in initiatives which contribute to environmental protection.

## Responsibilities:

- Turn off lights when leaving a room.
- Turn off computer at the end of the day.
- Keep copiers, printers, & fax machines on standby when not in use.
- Keep windows closed when air conditioning system is on.
- Keep building doors closed when air conditioning system is on.

## Facilities Management Practices:

- Purchase energy star compliant equipment whenever possible.
- Incorporate renewable energy into projects whenever possible.
- Schedulers of classes, meetings, and other campus activities endeavour to minimize energy use.
- Windows and doors should be kept closed when the heat and air conditioning system is operating.
- Electric vehicles are available to transport people and materials across campus.
- Energy saving fixtures, lamps, and bulbs are used to replace existing less efficient lighting whenever feasible.

This institutional policy will be communicated to the students and employees via institutional website. The Energy Policy, objectives and targets will be reviewed on a regular basis.
