

# ENVIRONMENTAL STUDIES PROJECT TITLE AND INSTRUCTION

## FOR 1<sup>st</sup> YEAR (SEM II) UNDERGRADUATE STUDENTS (2020)

### PROJECT TITLE

Choose any one of the three project options given below:

1. Checklist of flora (plants) and their importance in your surrounding area.
2. Checklist of fauna (animals) and their importance in your surrounding area.
3. Prepare a list of recyclable materials and habits which you use in your daily life to promote sustainable development.

### GENERAL INSTRUCTION

The students have to submit **the hand-written projects** (maximum **15 pages**) only. Printed version will **not** be accepted. The project should be written on **A4** sheet preferably. If not available, use any white sheet. Every page must be margined properly. **No plastic channel files will be accepted.** Project must be stapled and the stapled pins are to be sealed with sticking tape properly before submission. The project work is expected to be neat and tidy. You may use any coloured pen **except red colour**.

The students are expected to divide the project into **various sections** mentioned below:

1. Cover page with the project title, Student's name, CU roll number and CU registration number, Semester, Department (Hons or General)
2. Contents
3. Introduction
4. Aims and objectives
5. Location of study area
6. Methods of data collection
7. Results & Discussion
8. Conclusion
9. Acknowledgement
10. References

The submitted projects must be concise.

**N.B.:** A sample project is uploaded as a guideline. Almost all the **text books** of Environmental Studies (mentioned in the subject classes already) have sample projects for guiding the students. Kindly consult them also.
